PAVEMENT ORDINANCES

Electrician to be Employed
to Test the New Street
Lights.

The city council met Friday night with all of the members present and the mayor presiding.

J. H. Anderson & Co. presented an ordinance asking the privilege of raising the grade of the pavement at the southwest corner of their new lot on Main street not exceeding two feet, and they were granted permission by the ordinance to put a step or steps across the pavement to reach the new grade. The permission was asked in order to get the floor of their proposed new business house above the recent high water mark.

On account of the illness of Jas. Cannon, the case against Henderson, Jones and Cannon was postponed until next meeting.

The recent ordinance on East Ninth St. ordering down a curbing and cinder walk was amended on petition of several of the parties affected and the order changed to a concrete pavement. The amendment was given its first passage.

The Kentucky Carbonating Co. and the Kentucky Stave Co., new enterprises, were exempted from city taxes for five years.

I. M. Ward was granted a license to operate a saloon at No. 18, East Seventh street.

Mayor Meacham was authorized to appoint officers for holding the school election 1st Saturday in May.

The council authorized the employment of an expert electrician to investigate the new street lights and determine whether or not they are up to franchise requirements, and report April 19th.

A general discussion of sewers was entered into. The sewer committee was directed to contract for a two-foot sewer on North Main street and the building of the sewer on Seventh street was postponed until the Engineer can make an estimate on constructing a six-foot sewer down 11th and 10th streets to the river. The engineer was also directed to make an estimate of the cost of carrying part of the water east of the L. & N. railroad over the hill on Ninth street into the east fork of Little river. It is planned to spend a large part of the appropriation for street work this year on sewers.

TABERNACLE QUESTION.

Everybody That is Interest-
ed Seems Very Anxious
to Hold It.

POPULAR SUBSCRIPTION

The Matter Will Have
to be Disposed of at
Once.

The people are aroused about the debt hanging over the tabernacle. We have heard considerable expression about the matter since our issue of Saturday and everybody so far as heard from is opposed to the sale of the building.

They say it is a necessity, that we cannot get along without it. Having no house that is large enough for such entertainments as are furnished by Susa, Creator and other entertainments of national reputation, we cannot afford to lose the tabernacle, and like expressions can be heard on every hand.

But the question remains, how can the money be raised to pay off the debt? Some seem to think there is but one way to do it, and that is to appoint a committee to raise the \$2,500 by popular subscription. From what we have heard this can be done without any trouble. We know the ministers of the city want to hold the building for the purpose for which it was built. The people generally are the same way. Then why not let a committee be appointed to take pledges, the money to be paid at once and wipe out the debt?

The ministers were to take up the matter at their meeting yesterday morning. If they determine to use their influence out of their congregations as well as in them, there seems but little doubt, if any, of the total debt being wiped out and all annoyance done away with in the future. All that seems needed now is a leader, who will call in such others as he may need in his work. Let the matter be definitely settled before the week is gone. We believe it will.

People Learn This.

Can't rest at night with a bad back, a lame, a weak or an aching one. Doan's Kidney Pills are for bad backs.

They cure every form of Kidney ills, from common backache to diabetes.

They are endorsed by Hopkinsville people.

James A. Twyman, brick mason, 1230 S. Virginia St., Hopkinsville, Ky., says: "Disorders of the kidneys brought in my case so sharp and continued succession of pains and aches through my back that I could not rest comfortably at night and arose in the morning lame and sore. I was tired and worn out from morning to night, the kidney secretions were irregular, high colored, scalding and deposited a heavy sediment if allowed to stand? I had no energy left and felt generally run down. I was feeling worse than usual when my attention was attracted to an advertisement of Doan's Kidney Pills, and I got a box at L. A. Johnson's drug store and began using them. In a few days I noticed that the secretion had assumed a natural appearance and pain and aching had directly been relieved. By the time I had completed the box there was a wonderful change in my condition. I am glad to state that I am practically cured and Doan's Kidney Pills will be my friend for life."

A DOWN EAST MINE

COPPER DEPOSIT BEING WORKED
IN WESTERN MASSACHUSETTS.

Thriving Small Mining Community
Which is Doing Business in
Hosac Hills—Looks Like
Western Mining Camp.

One would not naturally look for a copper mine in old Massachusetts, but such is one of the surprises one would meet with in travelling through the Hosac hills in the valley of the Deerfield, for there would be found a mining community which looks for all like a western mining camp, having, perhaps, the saloons and the gambling places, and might be appropriately called the "Leadville of New England."

A well defined mineral belt appears in the hills of southern Vermont and continues, with varying richness of surface showings, across the state of Massachusetts to the south, some say as far as Virginia. Whatever may be its extent, there certainly is ample evidence of no little wealth underground, but the great problem is to find the best points where it may be extracted at a maximum of profit—the same old problem that dominates the search for gold, silver, copper and iron, wherever they exist, and the successful solution of which depends the development of satisfactory mining properties.

Lead is not new in Clarendon and its vicinity, but a boom like the present one is distinctly new there. For nearly a quarter of a century the largest pyrites mine in the United States has been profitably operated in the little settlement of Davis, in the town of Rowe, just to the northwest of Clarendon, but better known in connection with the latter town because Clarendon is the point of shipment for ore to concerns throughout the state east of the Mississippi.

The great vein of pyrites—the largest known deposits in the world outside of Spain—is a part of the mineral belt which cuts across Massachusetts just east of the main Hosac range. Where there is an immense body of pyrites it is generally safe to assume that copper, as well, exists, and it has been found, as the case in this instance, several pockets having been discovered in the pyrites domain of the Davis company and indications located at several other points among the hills to the south.

About 25 years ago H. J. Davis, a New York chemist, who was interested in obtaining the mineral, owned a place in the vicinity of Quebec and from this mine in his student at Amherst saw these specimens which were showing of the same thing in the town of Rowe. Mr. Davis lost no time in locating the place and purchased the land for the opening up of the immense ore body.

Three farms were included in his purchase, giving him about one and one-half miles on the strike of the

View of Operating Plant of Mine.

vein, ample area to carry out the extensive undertaking he planned. Within three months he had a force of contractors and miners at work and the operations have been carried on day and night since.

At Clarendon—as serene and self-contained a village as can be found in New England, but constantly reminded of the world of commerce by the continuous passage of freight and passenger trains over the Boston & Maine railroad across the river—is the center of the mining region, so is its little hotel the focus of all the mining interest and enthusiasm thereabouts. In place of the occasional commercial travelers and chattering groups of townsmen, the little office, heated by a gigantic wood fire, is tightly crowded with men who have interests in or who work for the different properties, and who linger in front of the blazing logs in an earnest discussion of "strikes," possibilities of development, continuity of veins, amount of copper that may be found, etc.

Laziness Fits Jails.

"Front the jail the jail" is the charitable fashion in which a sociological philosopher views the incarceration of vagrants who have been "on the road" during the warm weather. The truth is, of course, that it is not frost but laziness that fills the jails. Trampdom would cease to exist, frost or no frost, if industry became universal.

Macaulay's Bitter Words.

"If there is a word of truth in history, women have been always, and still are to-day, over the greater part of the globe, humble companions, playthings, captives, menials and bores of burlesque."—Lord Macaulay.

TOBACCO

Is Again Being Delivered In Large Quantities.

The April rains have put tobacco in good condition for handling, and it has been coming in for several days in large quantities. The crop of last year has been delivered almost altogether in loose condition, and the end is almost in sight. The prospect for plants for the next crop is anything but encouraging.

Stood the Test

Allcock Plasters have successfully stood the test of sixty years' use by the public; their virtues have never been equalled by the uncerupulous imitators who have sought to trade upon the reputation of Allcock's by them, and claiming them to be "just as good as Allcock's." Allcock's plasters stand to-day indorsed by not only the highest medical authorities, but by millions of grateful patients who have proven their efficacy as a household remedy.

GIRL BABY'S AWFUL ECZEMA

Sight of Eye Destroyed by Disease—
Tried Five Doctors but Grew
Worse—In Agony Eight Months
—Parents Discouraged, Until
They Tried Cuticura Remedies

IN ONE WEEK ALL SORES DISAPPEARED

"Our little girl, one year and a half old, was taken with eczema or that was what the doctor said it was. We called in the family doctor and he gave some tablets and said she would be all right in a few days. The eczema grew worse and we called in doctor No. 2. He said she was teething, as soon as the teeth were through she would be all right. But she still grew worse. Doctor No. 3 said it was eczema. By this time she was nothing but a yellow greenish sore. Well, he said he could help her, so we let him try it about a week. One morning we discovered a little yellow pimple on one of her eyes. Of course we phoned for doctor No. 3. He came over and looked her over and said that he could not do anything more for her, that we had better take her to some eye specialist, since it was an ulcer. So we went to doctor No. 4, and he said the eye sight was gone, but that he could help it. We thought we would try doctor No. 5. Well, that proved the same, only he charged \$10 more than doctor No. 4. We were nearly discouraged. I saw one of the Cuticura advertisements in the paper and thought we would try the Cuticura Treatment, so I went and purchased a set of Cuticura Remedies, which cost me \$1, and in three days our daughter, who had been sick about eight months, showed great improvement, and in one week all sores had disappeared. Of course it could not restore the eyesight, but if we had used Cuticura in time I am confident that it would have saved the sight. We think there is no remedy so good for any skin trouble or impurity of the blood as Cuticura. Mr. and Mrs. Frank Abbott, R. F. D. No. 6, Fulton, Oswego Co., N. Y., August 17, 1916.

HOW DULL!

Nothing but a Carnival Now in Sight.

Now that Creation has gone, there is nothing to look forward to. Not even a circus is headed this way. The carnival will not be given until May, we will have no leagues, ball this year and the outlook in the way of recreation for spring and summer is gloomy indeed. If we had two or three good parks we could get along pretty well, but—

Pawnee Bill's Wild West and Great Far East will be here on April 27th and relieve the monotony for a while.

Out of Sight.

"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that has been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too and chilblains disappear under its healing influence. Guaranteed by R. C. Hardwick, druggist, 25c.

Used His Ax.

Gov. Patterson has vetoed the LaFollette Charter Bill, and thereby dealt a severe blow to the temperance element in the Tennessee Legislature.

High Pressure Lives.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society more numerous. The first failure of the praiseworthy effort to keep up with these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

ROYAL Baking Powder is indispensable to the preparation of the finest cake, hot-breads, rolls and muffins.

Housekeepers are sometimes importuned to buy other powders because they are "cheap." Housekeepers should stop and think. If such powders are lower priced, are they inferior? Is it economy to spoil your digestion?

Hard Times In Kansas.

The old days of grasshoppers and drouth are almost forgotten in the prosperous Kansas of to-day; although a citizen of Codell, Earl Shamburg has not yet forgotten a hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough and cold cure and lung and throat healer ever discovered. Guaranteed by R. C. Hardwick, druggist, 50c and \$1. Trial bottle free.

Major Nelson J. Edwards, inspector general, with the rank of major. Capt. C. H. Tandy, quartermaster, with the rank of major.

It will be seen that three Hopkinsville men, Maj. Tandy, Capt. Flack and Lieut. Winfree get good places.

His Dear Old Mother.

"My dear old mother, who is now 83 years old, thrives on Electric Bitters," writes W. B. Brunston, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by R. C. Hardwick, druggist, 25c.

Ryan-Tandy.

Mr. Ray Ryan and Miss Norryne Tandy, accompanied by Miss Otho Grace and Mr. Ernest McLean, boarded the 5:18 train Sunday afternoon and went to Springfield, Tenn., where they were united in marriage by Rev. W. B. Lowery. They returned to the city on the ten o'clock train.

Not Improving.

Mr. Julian Hord, who has been confined to his bed for several weeks, is not improving. His condition has not been critical at times, and yesterday morning he was reported to be a little weaker than the day previous.

Thousands Have Kidney Trouble and Never Suspect It.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or something indicates unhealthy condition of the kidneys. If it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scaling pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Ringwood, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Ringwood, N. Y.

Mr. Bible Re-elected.
The many Hopkinsville friends of Mr. John P. Bible will be pleased to learn that last week he was overwhelmingly re-elected mayor of Ionia, Mich. Mr. Bible did not want the office another term, and so stated publicly and privately, but he was re-elected despite his protests.

LIFE IN A HAREM

ATMOSPHERE IN WHICH THE WOMEN OF TURKEY LIVE.

Ayche Fakke, Talented Turkish Lady, Who Escaped to London, Gives Her Personal Experiences.

The word "harem" conjures up visions of hours veiled in the mystery of generations of seclusion, and exercises on the occidental mind the wonderful fascination of the unknown, but alas! the reality of harem life has no illusions, no glamor for us, the unfortunate daughters of the east, who have to endure its monotony, bear its suppressions, and suffer its humiliations from year to year, with few compensations, and no hope.

The high intellectual culture given in the present day in the harem is responsible for much suffering. Taught by European governesses to be equal-

Rooms in a Harem.

ly proficient in four or five different languages, able to read the classics in the originals, trained to appreciate all that is best in music, art and literature, we learn of the treasures that lie in the world outside only to know that they are not for us.

Loaded with jewels, clad in Parisian dresses, surrounded by luxuries of every description, the refinements of civilization are ours, and these are supposed to satisfy all that the heart of a Turkish woman can desire; to compensate for stifled longings, to still the yearnings to be something more than a chattel, to have the right to think, and live our own life. Ask a Turk with a family of three sons and three daughters how many children he has: "Three," he will answer, and this is symbolical of our position; we simply do not count; we are possessions, not factors in the economy of life. Existence in a harem is captivity within captivity; there is no privacy, no locks or bolts to the bedroom doors, and the servants come in and out as if the place were their own. When we go out it is in a close carriage, attended by a slave and a eunuch—the latter nearly always black, so that he may be distinguished by his skin. We must not leave the country without the special permission of the sultan, which is difficult to obtain, even when health and life itself depends upon the concession. We may not have as much as our photographs taken as a souvenir for a friend without the same august authority. Our letters, papers and the little possessions dear to every woman are not our private property, but are liable to be turned over, confiscated, or burned at the whim of a husband, as a punishment for some supposed misdemeanor, or to gratify his love of power.

There is little break in the monotony of harem life: study and sewing, sewing and study, with an occasional tea party; but this is not of frequent occurrence, for when one visits a lady friend, all the men of the establishment must leave the house—an inconvenience not to be lightly enforced.

By law, a child does not owe obedience to its parents after the age of 15, but this is ignored, and never had effect. Parents are tyrannical in their authority, and marry their children to whom they like, making arrangements and settling details without reference to the wishes of those it concerns most. A girl looks on her marriage as a great catastrophe, a part of the endurance which is a woman's lot, and goes to the man she has never seen, and to the unknown life that lies before her, hating, hoping, fearing. She may not love her husband when she knows him; she often hates him, yet she must live with his other wives in seeking his favor; he preferred to-day to be slighted to-morrow, endure the humiliations, the rivalries, the petty jealousies which are always a part of harem life, and go through the awful scenes which often ensue when the lord and master has left. Any preference shown—the gift of a jewel, a word of praise or admiration—is enough to rouse the dormant passions, suppressed until the husband leaves, but which then break out into a hurricane of jealous fury, in which they tear one another's hair out. They are jealous of one another's children, sometimes of their own, and there is no outlet but physical violence for the rage that consumes them. Compelled to live in the same captivity with hated rivals, the irritation is never allowed to die out and tragedies follow—hushed up, but none the less tragedies—of mental misery and reckless revenge.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

DR. McPHERSON WILL PREACH EVERY NIGHT THIS WEEK.

Rev. Geo. W. McPherson preached Sunday at the Baptist church and two persons united with the church at the morning service. At night one convert was baptized and several others await baptism. Dr. McPherson will preach every night this week at 7:30 o'clock, except Friday, when the service will begin at 7 o'clock. This is his last week here, as he will preach his farewell sermon next Sunday night and leave for his home in New York.

His service here and elsewhere in Kentucky has made for him a large circle of friends and his ability and power as a preacher are universally recognized by all who have heard him. He made a visit to Georgetown, Ky., last week and preached there one night by invitation. The congregation Sunday night was one of the largest he has addressed in Hopkinsville. His meetings this week will undoubtedly be largely attended.

FESTIVAL MURDER.

Ed Browder's First Shot Sends Peter Taylor into Eternity.

MURDERER ESCAPED.

A Crap Game at Saturday Night "Festival" With Usual Finale.

Shot through the shoulder, the ball lodging in the heart and dead in less than five minutes was the fate of Pete Taylor, a negro, met Saturday night, while on his knees, not praying, but shooting craps. His murderer, was a man of his own color, by the name of Ed Browder. As soon as he fired the fatal shot Browder "took to the woods," and up to yesterday morning was at large.

The killing took place on the farm of Mr. J. R. Caudle, about 8 miles from the city on the Canton pike. A negro "Festival" had been gotten up for Saturday night at one of the negro cabins on Mr. Caudle's farm. There was quite a gathering of the colored people from the neighboring farms and the usual "High old time" was on. Finally a crap game was put into the list of amusements. There were it is said, about 15 negroes engaged in the game, among them Ed Browder and his victim, Peter Taylor.

The game gradually grew more interesting to those engaged in it, especially to the above named. Browder called Taylor, it is said, a liar and dared Taylor to repeat it, which he did. Without rising from his knees Browder reached round to his hip pocket and drew his pistol and fired one shot at Taylor. That was enough. Taylor fell over on his side without having risen from his knees, in which position he had been throwing the ivory cubes. His game was up almost instantly, and the cold-blooded murderer was making his way through the fields.

Of course the evening's "entertainment" was brought to a rather abrupt conclusion, but there was no great surprise, as these "festivals," which are, in the summer months, quite common, usually have a tragic ending.

Coroner Allensworth was notified and went down Sunday morning and held an inquest, the verdict of which is given below:

"We, the jury summoned by J. L. Allensworth to inquire into the cause of the death of Peter Taylor, find that he was shot by Ed Browder, the ball taking effect in the right shoulder, ranging toward his heart, causing Peter Taylor's death. We further find that Ed Browder was not justifiable in said shooting, charging him with wilful murder."

This, 7th day of April, 1907.
T. E. Caudle, chairman; Walter Southern, Charlie Redd, Willie Rollins, B. B. Barker, J. R. Caudle, J. L. Allensworth, Coroner C. C."

Yesterday morning a young negro who was at the festival, and it is said knew the names of the gamblers, was before the county court giving information that would lead to the arrest of most, if not all of those engaged in the game of craps.
